## EDUCATION

---

### Bachelor of Science in Computer Science

December 2018

*Texas State University - San Marcos, Texas*

**Minor:** Applied Mathematics

## WORK EXPERIENCE

---

### Software Engineer

September 2018 – Present

*IHeartMedia, Inc.*

#### Ad+ Scheduling

- Collaborated with a team of contractors and local partners to develop and release a complex spot scheduling application to production.
- Utilized various technologies to migrate monolithic applications into more modern microservices, improving the applications along the way based off business needs.
- Communicated directly with VPs and DCTOs to interpret and establish business requirements, communicate deployments, and provide support after release.
- Followed provided acceptance criteria to satisfy end-users and substantially increase scheduling efficiency and spot earnings.

#### Ad+ Plan – Digital

- Translated business requirements into new technology to expedite digital advertisement sales at the national and local levels.
- Built architectural groundwork for new digital products which are estimated to provide \$120 Million in gross profits in 2020

### DevOps Engineer Intern

June 2018 – August 2018

*IHeartMedia, Inc.*

#### Healthcheck & Monitoring

- Designed and developed a system health monitoring dashboard to gather real time information and increase company productivity.
- Developed automated CI/CD tools using Jenkins, AWS, and Python/Bash scripting to manage full scale applications.
- Worked solo to develop production level systems coordinated with the Agile process.

### Deli Clerk

August 2015 – May 2018

*H-E-B, Inc.*

## SKILLS
